DISTILLERY CO

Glasgow is a city of achievers: self-made men and women with a hunger to leave their mark. Founders of the Scottish Enlightenment, engineers of the 19th Century, European leaders of art and commerce. Glasgow has been propelled to prominence by the flair and drive of its people.

Drawing on the pioneering spirit of Scotland's first licensed distillers, The Glasgow Distillery Company takes its name from Glasgow's original distillery. Founded in 1770, the distillery was known for a time as The Glasgow Distillery and remained active until the beginning of the 20th Century.

In the intervening years, Speyside, the Highlands and the Islands of Scotland have established themselves as home to some of the world's finest, most characterful spirits.

At The Glasgow Distillery Company, we are re-establishing the metropolitan Scotch Malt Whisky tradition alongside these great whisky regions and bringing Glasgow Malt Whisky back to life.

We have invested in the best distilling equipment, sourced the finest ingredients, the finest casks and assembled a team of innovative distillers to deliver what is already an award winning new make spirit with the first casks maturing under the watchful eye of our distillery team.

A close-up, vertical shot of a wooden whisky cask. The wood is a warm, reddish-brown color with visible grain. A metal band, likely brass or steel, is wrapped around the cask, showing some wear and a slightly reflective surface. The background is blurred, suggesting an indoor setting with other casks or barrels.

This is your invitation to join the Glasgow Distillery Cask Club. It is a chance for you to own a piece of Glasgow distilling history and to acquire our spirit at an exceptionally attractive price. Join a close group of friends of the distillery who have already secured one of our limited release Scotch Malt Whisky casks.

Your whisky will be stored for a minimum of three years and a day in our bonded warehouse in Glasgow. At this point it will gain legal status as Scotch Malt Whisky.

Choose from unpeated, peated or triple distilled new make spirit and we'll supply the finest 200 litre ex-bourbon cask from Kelvin Cooperage in Kentucky.

You will be allocated a specific cask alongside an official certificate of ownership. Subject to the legal minimum of three years for Scotch Whisky, you can mature it for as long as you see fit.

You will be able to receive a sample of your spirit and visit your cask at The Glasgow Distillery on request. We'll ensure your purchase is safe with 5 years minimum storage and warehousing insurance included in the purchase price.

When you think the time is right we will recommend a labeler and bottler. You have the option at any time of selling your cask of whisky (before it is bottled) but you need to speak to us prior to doing this.

Your whisky will be stored for a minimum of three years and a day in Glasgow. At this point it will gain legal status as Scotch Malt Whisky.

After the first five years, there will be some charges as your whisky matures. These will be for storing the whisky in our warehouse, drawing additional samples and (at the point of bottling) for bottling, delivery, duty and tax. All of the costs are laid out in the Cask Club terms and conditions, available upon request.

We hope you are excited about this unique opportunity to be a part of Glasgow's first Independent Single Malt Whisky Distillery in over a hundred years.

I hope you choose to join us as we continue our journey; bringing Single Malt Whisky back to Glasgow.
